Subject: Hunters Pt radiation concerns from 5/18 EJ Task Force Mtg
EJ Task Force 5-18-2016.docx

Dear Stuart and Dianna,

Keeping you in the loop: Every monthly EJ Task Force Meeting has a section on the agenda for an open invitation to community members to bring up any concerns not already on the agenda. All of the concerns/questions yesterday in this section were related to Hunters Pt radiation. Below is a summary, and attached are details. Roger Kintz (DTSC EJ program) and Deldi Reyes (EPA EJ program) were also at the mtg because they were doing outreach on their own topics, so I asked them to review the attached for accuracy. In the mean time, I wanted to share this right away, even though it is still in draft form.

Summary of concerns:

- Because Tetra Tech falsified samples, we don't trust that we are safe.
- EPA and DTSC should do criminal investigations.
- EPA should collect samples independent of Navy, and they should be underground, not just surface
- Radioactive material is going to the landfills in Buttonwillow and Kettleman City, both EJ communities
- The Navy should come back to the EJ Task Force Meetings and answer questions
- Treasure Island is related to Hunters Point and the EJ Task Force should also address Treasure Island problems.
- The Navy should bring back the RAB

Details attached

Lily Lee
